REGULAR FEATURES

In addition to the features listed above, every issue **LABM** includes targeted content offering the latest construction and refurbishment advice to ensure our readers have the right information to help them deliver successful projects.

We also provide details of relevant funding announcements and sector trends, as well showcasing local authority and housing association projects.

Project Profile: In-depth council and housing association case studies

Industry Comment: Opinion from the Association of Retained Council Housing

International Perspective: Built environment design best practice

View From the Supply Chain: Supplier perspectives on key sector issues

Offsite Insights: The latest developments in modular and offsite construction

Legal Update: Keeping LAs and HAs up-to-date on their legal requirements

Every issue we include news announcements, details of forthcoming industry events and expert opinion pieces from across the sector, plus a round-up of all the latest products/solutions on the market relevant to the sector.

If you would like to submit an article or synopsis for consideration in the magazine please contact the Editor for details and copy deadlines.

Articles commissioned for LABM must be exclusive to us in respect to competitor titles. Images must be high resolution, at least 300dpi and large in format. We prefer project shots, step-by-step installation images, before and after photography and relevant charts/diagrams to accompany articles. We reserve the right to omit articles that do not meet our editorial guidelines.
