

Features List 2025

Professional Builder has been the UK's leading problem-solving magazine for active tradespeople for more than forty years. Articles on any relevant subject – repair, maintenance and improvement or new build – are always welcome. Key subjects include masonry, carpentry and joinery, plumbing, tools and workwear, painting and decorating, vehicles and plant, landscaping and decking, sustainability, and Building Regulations.

A dedicated business section deals with tax and legal matters, alongside regular columns covering health & safety, training/upskilling and on-site evaluations of the latest products to hit the market.
